Experience

Google Developer Students Club   August 2023 to Current
Team Lead

- Overseeing and guiding the team's day-to-day activities, ensuring they stay on track with project timelines and goals.
- Grow student knowledge on developer products and platforms through hands-on workshops and events.
- Identify local partners to work with and lead project building activities.
- Host an event ideally once a month, or a total of 4 events for the year.
- Participate in program campaigns and events

PyCode   January 2022 to Current
Team Lead

- Overseeing and guiding the team's day-to-day activities, ensuring they stay on track with project timelines and goals.
- Collaborating with project managers and stakeholders to define project scopes, goals, and deliverables.
- Demonstrating strong technical expertise and serving as a subject matter expert.
- Reviewing code submissions to ensure adherence to coding standards, best practices, and quality assurance.
- Collaborating with cross-functional teams, such as design, testing, and product management, to ensure seamless project coordination and successful project delivery.

University of Ghana Business School   November 2022 to January 2023
IT Specialist Intern
- Provide frontline technical support to end-users, troubleshooting hardware and software issues, resolving technical problems, and escalating complex issues to senior IT staff when necessary.
- Assist in maintaining and configuring computer systems, laptops, printers, and other hardware peripherals.
- Assist in installing and updating software applications on user systems.
- Support the IT team in monitoring and maintaining the school's network infrastructure, including switches, routers, and firewalls.
- Assist in creating and managing user accounts, permissions, and access levels on various systems and platforms.

University of Ghana Business School   August 2022 to October 2022
Web Developer
- Implemented improvements to boost site performance.
- Built layouts according to customer parameters using HTML5 and CSS3.
- Redesigned sites to enhance navigation and improve visual appeal.
- Designed visual and graphic images to use on multiple platforms.
- Validated code for proper structuring, security and compatibility with different browsers, devices or operating systems.
- Troubleshot, tested and remedied issues before software deployment.
- Maintained strong education in latest technologies, software and hardware products for use in various projects.
- Directed design, writing and production of page content to fulfill project demands and satisfy customer needs.

Education and Training

Akwamuman Senior High School   December 2018
West Africa Senior High School Certificate Examination (WASSCE)

Koforidua Technical University
HND: **Computer Network Management**

Other Certifications

Git Cybersecurity: Introduction to Cybersecurity , Cyber-Ghana GitHub
